

ekaSoft Care Mattress

- * For very shortweight patient's
- * High comfort
- * Covering for incontinence protection
washable up to 95°
breathable
- * Zip on both sides
- * Mite-proof sewed

body weight

15-50 kg

Advantages:

The viscoelastic **PURBalance[®]** health foam offers a high degree of form stability. The topographic flexibility allows perfect positioning through gentle supporting force. For extremely shortweight patient's the **ekasoft** gives an optimal base for staying in the bed.

The comfort from the sandwich construction with 8 cm **PURBalance[®]** and 4 cm stabilisation foam (HR) is excellent !

As an option you can get the **ekaSoft** with 8 cm guide zone at both sides, please note this with your order.

A bi-elastic damp and mite protection covering and hidden zip on both sides offer perfect protection. Naturally we can deliver the **ekaSoft** with fabric material coverings.

Please specify this when ordering.

Enquire by phone or fax about the perfect purchase price according to the size of your order.
